

# RISE API FEEDBACK v1.03

## OUTPUT ISSUES – API Data format

Races/Prize should be whole number e.g. \$20000 not \$20000.00 (LKAPDF output falls over)

In V1.1 feedback – add dollar sign to race stakes API data

RACE_STAKES	\$7,500	7500	NEED TO ADD DOLLAR SIGN TO API XML FILE PRIOR TO INPUT	SAFXML
-------------	---------	------	--	--------

Changes to format have been made – but now is \$7,700.00 in the XML file produced. Need to remove the trailing zeroes as the outputs will not process this number format.
